

Construction Equipment Rental Markets in the Baltic States

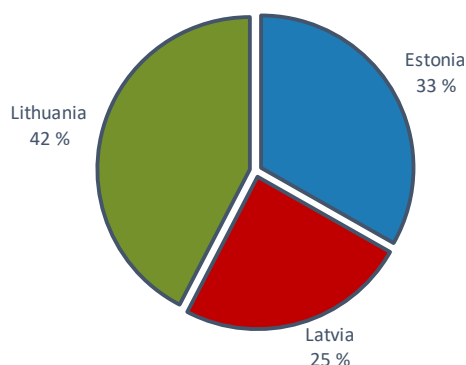

June 2023

Forecon has developed together with the Finnish rental industry a forecasting model for the Finnish construction equipment rental market. Now Forecon offers similar forecasts for the Baltic rental markets.

Rental market coverage in the Baltics

- Renting of construction and civil engineering machinery and equipment without operator
- Renting for construction and other use (whole renting business)
- All equipments together
- All three countries separately and together
- Penetration rates by countries, calculated by useage of the equipment
- Forecast bases on our broad construction market forecasts.
- The forecast period is until 2024.

Construction equipment rental markets in the Baltic States in 2020

The report includes the following:

- General outlook for economy and construction.
- Rental Market **by countries** divided in new building construction, renovation, civil engineering and other use (industry etc.)
